Bipul Acharya

Front End

A highly motivated and enthusiastic front-end developer seeking an opportunity to contribute value and deliver exceptional service to clients. I am proficient in HTML, CSS, and JavaScript, with hands-on experience using frameworks like Tailwind CSS and Bootstrap. I have developed personal projects utilizing the React library and the Next.js framework. Currently, I am planning to advance my skills towards full-stack development and am eager to learn modern technologies such as Node.js, Express.js, and MongoDB to complement my React-based projects.
You can see my projects live on vercel as provided links below

EDUCATION

Master

Nepal Commerce Campus / February, 2018 - December, 2022

My field of study is different from the area that I am willing and starting to work. I started my career as a management student but recently due to my deepest passions I decided to switch towards the world of Information Technology. However, I can assure that my education despite of its irrelevancy can be of great use

SKILLS

- Good management Skills hardworking - Experienced
- Grievance handling and solution - Skillful
- "Proficient in communicating in English." - Experienced
- HTML and CSS - Skillful
- HTML/CSS JavaScript Front-end Frameworks (e.g., React) Responsive Design

ACHIEVEMENTS

TRAINING/CERTIFICATIONS

Web Design Training

Broadway INfosys / 2024

I have completed 3 months web design training. I am good at using HTML, CSS and REACT. I have made projects with CSS frameworks like Tailwind CSS and Bootstrap, and JavaScript libraries React and Next.js. Also am good at using Figma. I have used Figma for UI project. You can see my projects from the link provided.
